

News From Your Town Hall

The question of drainage for the section north of the Hillsboro between the Pahokee Road and the railroad is being discussed with the road engineers and it is hoped some relief is in sight.

Your homestead exemption must be filed before Feb. 10. Better check up and be sure to get it in. It isn't right that you should have it, but you have so go get it.

Shouldn't this City have a head tax for the many thousands who are here for half a year but don't contribute a dime towards city government?

Trailer Stolen - Police at South Bay are wondering who the culprit was that stole the trailer from in front of the Roadman store Sunday night, which later was located in a wrecked condition. The trailer apparently had been attached to a power unit, but was too heavy for the operator to handle, hence the wreck.

Truck Burns Up - Road patrolmen and county police officers were called down on Road 26 Saturday night to investigate the wreck and burn of a big transport truck which had aboard a load of liquor and meat. The truck left the highway, caught fire and was burned up. The burning liquor roasted some of the hams, so that the crowd which had gathered, had roast ham, baked in liquor—very good.

Mrs. R. F. Kirk Dies - Mrs. Ralph Kirk has been notified of the death of her mother-in-law, Mrs. R. F. Kirk, at her home in Springfield, Mo., on Sunday, after a long illness. Her two sons, Sheriff John Kirk and Ralph Kirk, were at her bedside during her last days. While never a resident in Belle Glade, Mrs. Kirk had visited her sons here and had a considerable circle of acquaintances and friends who will regret to learn of her death. Funeral services and interment took place in Springfield.

New Local Skating Ring - Roller skating is coming back to Belle Glade after an absence of several years, or since the Great Depression. The city commission has granted a permit to J. L. Rosenbald to erect his portable rink on Pierce lands north Main street. The rink will open on Saturday afternoon, with afternoon and evening sessions daily except Sunday. Mr. Rosenbald is an experienced rink operator and was formerly located in Ft. Lauderdale.

Basket Ball Results - Belle Glade high school basketball teams went to Ft. Pierce Tuesday night to play the Eagles. The game was a double defeat, the score being: girls, Ft. Pierce 13, Belle Glade 10; boys, Ft. Pierce 63, Rams 38.

The Glades All Stars composed of Belle Glade and Pahokee players were also defeated by Ft. Pierce on January 30, the score of 50 to 42.

Plan Water System - The South Bay Town Council met with Smith and Gillespie last week and authorized them to go ahead with plans and specifications for the proposed water system for South Bay.

Smith Low Bidder - The Paul K. Smith Construction Co. of Tampa, who have been doing city and private construction work in Belle Glade, is reported as being the lowest bidder on a new million-dollar plant project at Dunedin, for the Citrus Concentrates corporation, whose plant was burned some months ago.

Restaurant Labor Trouble - Owing to labor trouble which developed Sunday night, the Belle restaurant was closed all day Monday but again reopened for business on Tuesday morning.

Start Plans For New Glades Road For 1947-8 Period

Chamber Of Commerce Has Good Financial Report

At the business session of the directors of the Chamber of Commerce Monday night, several matters of considerable importance to the Glades were presented and discussed. It was pointed out that the State Highway Department had no new plans for additional main and farm highways in the Glades, beyond what had been authorized by the State Legislature of 1945, which will be completed during the present year, but that the 1947 Legislature would be mapping out such work for the years 1947-48.

That if the Glades area was to secure some of these highway improvements, it was time for planning and arranging for them, and now was the time to let the spade work on the projects.

Looking to this special committee will undertake an informal survey, and will report back at the meeting of the Chamber on February 15th, when roads will be the special topic to be discussed at the round table.

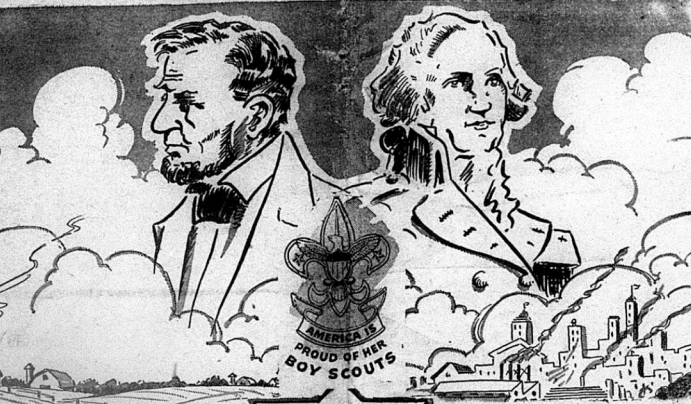

Report was made that the state crew had completed the survey for the new 200 foot wide, rock to rock road, which will run from Vinegar Bend northeasterly to Road 25 near the Nine Mile bend. And from that bend another spur will run in a northerly to strike in the Canal Point region, thus missing both Belle Glade and Pahokee.

Mrs. Alberta Potter, the secretary, presented the financial report for 1945 operations, showing that bank balances and collections for the year had been \$12,359.93.

The board studied the engineer's plan for the proposed three culverts planned for the new packing house highway, for draining areas north of the road, and additional, along this line will be sought along this line.

Discussion was also held on the Board's support of a city manager for Belle Glade, and report was that the proposed employment of such an official was meeting with most general approval. Many firms have been secured even at a high price, if he had Washington connections, he could bring back returns and benefits to the city and area, and many times the cost of his services.

Strathman Now a Major - Glades Methodists who have the pleasure of knowing Capt. James E. Strathman, former pastor of the Pahokee church, will be pleased to know that he has been raised in rank to major, and is now in the city and area, is now stationed at Ft. Myers.

Nothing in the history of democracy has gone further to justify belief in the capacity of the common people for self government than the fact that Lincoln's great heart and brain sprang from poor, unlettered ancestry and were now shed in the sterile soil of backward's life.

Growers Refuse To Plow Under Celery Crop

The vegetables grow and mature, are hauled to the packing plants and processed, and then are on their way by rail and truck for their destination in the north, to feed the hungry "snow birds". That is the program of activity here in the Glades section this week, and big volumes of produce are hitting the market.

The suggestion made last week by the State Association that 40 per cent of the celery be plowed under, did not meet with unified support in this area, as the percentage of growers needed to put the suggestion in force did not materialize by a big margin, so celery cutting goes on at a merry pace, growers taking their chance on the market demand and prices.

Field workers who will be needing food for the spring harvest have signed up for work on the celery crop. The fact that the present season is showing advanced shipments over last year, despite many handicaps, is pleasing the growers, as well as filling their pocket books to pay costs of production, and still leave a bit in the old jeans for other purposes, including new equipment, farm extensions, and that necessary summer vacation.

Beans will again be hitting the market in good volume within a week or ten days. The Pahokee area is again in the bean market, after a lapse of time, due to frost or crops. English peas are also among the new commodities that are being forwarded.

The forwarding of 417 carloads of produce the past week brings the total of the season up to 4854 cars, and does not include the large truck forwardings.

Table with 4 columns: Crop, North End, South End, Total. Rows include Beans, Cabbage, Celery, Chicory, Corn, Endive, Escarole, Mix Veg, Peas, Peppers, Potatoes, Radishes, Turnip Green, and Total.

Rotary-PTA Sponsored Norton Glee Club Gets A Grand For Library

In customary Belle Glade fashion Slick Kirkman and his committee consisting of Lou Betner, Caspar VanLandingham, Bam Bamford and Joe Freedlund for the Rotary, and Roscoe Bradlock for the PTA, traveled the highways and byways garnering shovels for the school library fund, using as a very legitimate excuse the Norton Glee club's appearance.

Several hundred music lovers enjoyed the offering of the Norton Club on its third appearance here under the Rotary sponsorship, the school library benefits very handsomely and the committee has the satisfaction of a job well done. The donors—advertisers to you—must also have a feeling of satisfaction in being a part of such a worthy community effort.

Christian Ambassadors To Visit Belle Glade

The Rev. Francis W. Brush, Th.D., will speak at the First Methodist church Friday, February 8th, at 8 p. m., on the subject of "Philippines Face the Future," and will be introduced by the Rev. Jay O. Jensen, a former pastor in the Philippines. Rev. Brush was imprisoned in Santo Tomas for three years and returned to the States in October. He will also address the Rotary Club on Friday, February 15.

The Rev. Raymond B. Druker, D.D., director of Kentucky mountain work, and former pastor, will speak at the high school assembly in the auditorium on Friday, February 15, at 2 p. m.

Want State Roads Changed to Federal

The highway committee of the Resource and Development Association held a public meeting at West Palm Beach early this week, in which recommendations were made on roads for the eastern and Glades area of the county.

Clewiston Golfers More Rusty Than Locals

Eleven foursomes each composed of a twosome from Belle Glade and Clewiston, went the rounds Sunday afternoon on the local course with disastrous results from a scoring standpoint for the visitors.

Eight of the local teams won all the points here—three—while two teams garnered two points each and one of our local teams lost a net of one point.

A return engagement to Clewiston the coming Sunday will probably see the cane cutters whittle that percentage down. A third match will be played here to complete the tournament.

School Children Aid March of Dimes

For the past few weeks the students of the local schools have worked diligently collecting dimes for the infantile paralysis fund, with the sixth grade of the Belle Glade elementary school turning in the largest amount. The elementary school turned in at least \$200.00, Osceola school \$21.21, colored school \$38.25, and the South Bay school \$94.20, which forms a total of \$746.46.

YOU WERE ELIGIBLE ON THE BATTLE-FRONT, LIEUTENANT!

Lieutenant E. L. Emery, an overseas veteran, his wife and two relatives were dragged from the 25-foot-deep road-side canal at the Raoul farm after having crawled from their two-door through a window when their car was forced off the road by a careless negro driver.

The case of extreme shock was administered to, but the other three, all of whom were dripping wet, were forced to shiver without blankets or wraps while a clerk processed them and relatives concerning their "eligibility." Request was made for relief from wet and cold conditions to no avail. The lieutenant was bloody, around face and hand; his clothes were torn, dripping wet and bloody. After 18 to 20 minutes of this, without any nurse or doctor offering a blanket or other first aid, an official, fearful of further lack of treatment, took the three to a local doctor.

Public Utility Admits Potential Of Glades By Vastly Improved Service

Local Loan Association Gives GIs a Break On Loans For Building

At its regular monthly meeting Tuesday, the Belle Glade Federal Savings and Loan Association scored a "first" in its effort to give the young men who have returned to the community a chance to get a home. By extending the percentage of loan based on appraisal to the limit of 75 per cent, to owner-occupied homes of GIs, the local establishment "is making the first effort visible locally to help GIs with homes," according to one local legion authority.

Due to restrictions under which it works and the overall picture, FHA admits that it will cost you approximately 100 per cent more to build a home than at the war's beginning, but it does not mean nearer than 40 per cent increase in its appraisal.

Form New Partnership

William Casten and Mrs. Gertrude Jones have formed a partnership under the name of the G and B Electric company and have opened a shop in the Main street room on Avenue A opposite the City Hall. Mr. Casten, for several years before entering the armed service, was employed by the former Simons Electric company, on the Palm Beach road.

Woman Gives Officers Points on Wrestling

When Constable Carleton went to take Constable's rooming house to office under a woman desired as a material witness in a recent shooting affray, they little suspected that they were going to run up against a tartar, but that was their experience.

Publicity Medium

President M. L. Campbell of the Chamber of Commerce announces that the Dupont estate, which operates a chain of banks in a number of Florida cities, is soon to issue a 200 page booklet setting forth publicity for the areas which it serves. The circulation over the state will be at least 200,000 copies. The firm has given Belle Glade space in the book, and the Chamber will provide cuts and reading matter.

Navy Recruiter Changes Schedule

An announcement is made by the U. S. Navy recruiting station in West Palm Beach that Chief Charles B. Holcomb will now visit here only on the second Wednesday of each month for accepting enlistments in the regular Navy. He will be at the Navy's quarters in the City Hall from 12:30 to 3:30 p. m.

Materials Still Scarce

Notwithstanding the fact that the OPA recently granted an increased sales price to Glades manufacturers of standard equipment blocks, as yet builders locally are not getting in any quantity with pole saws and line. Builders also report an extreme scarcity of sheet rock for walls, which is being up on the completion of several building projects.

Many Millions Spent To Give This Area Service For The Present

surely a change of wind direction or increased tempo of a northwester would find the Glades without quick. Peter Paul MacGregor Smith and his satellites on the Glades and we have "big time" juice now. We're glad to give you herewith Peter Paul's publicity story on "what's cookin'!"

The Florida Power & Light Company announced today the completion of the new 60,000 volt transmission line connecting the Glades area with their Ft. Lauderdale plant and transmission system. On the morning of February 7th this new transmission line, 67 miles long, was permanently connected to the company's substation at Belle Glade.

The Lauderdale-Glades line is but one unit in the company's present two-year \$24,000,000 construction program. This construction program is the largest since the interconnected system was built during 1925 and 1928, that interconnected numerous power companies in Florida.

The magnitude of the work involved in its construction may be seen from the fact that 930 poles were used. If placed end to end, they would extend a distance of 101.2 miles. Approximately 150,000 man hours of labor went into its fabrication. Two hundred miles of 2-0 wire weighing 460,000 pounds were strung as conductors. Six miles of guy wire and eleven miles of pole grounding were used. There were hundreds of thousands of minor items such as crossarms, bolts, nuts and washers as well as the major items. It took approximately 37 flat cars to transport the poles, 15 cars for the wire and 14 cars for the guy wire and line hardware. The line was constructed through that portion of the Everglades where water and mud were from 2 to 10 feet in depth.

In order to set the poles firmly, it was necessary to penetrate the flint-like rock below the mud and swamp. Two to four feet. Penetrating this rock proved to be a major operation that taxed the ingenuity of blasting and explosive experts, including demolition experts of the U. S. Navy. The line is located from 100 to 200 feet from the road and for a great part of the distance traverses virgin Glades swamps. In many places along the line, it was impossible for ordinary vehicles to work. Tractors had to be improvised with pole saws and equipment. (Continued on Page 2)

OBSERVATION and Comment

By John M. Oldhill

As one who attends sessions of the City Commission and who has seen many things that come before the body for consideration, it sets me to wondering how they do get so much material in front of them. Just to review a few of the matters that are facing these busy men and women in their busy day.

Completing details of the new water treating plant and extension of the water services throughout the city.

Plans for a new building code, expansion of fire and business building zones.

Erection of a new city jail on the city's new site, and city garage, school, and service station.

A new survey for a sanitary sewer. Continued on page 6

## Things One Remembers

One reads in the newspapers of "picket lines" preventing the owners or managers of factory properties from having access to their own premises. One wonders why we refer to the United States as a free nation. Such circumstances indicate complete capitulation of the police powers of cities and states to the organized forces of revolution.

Suppose, for example, in a strike-bound plant, management would hire pickets to prevent employees from entering their own homes so long as they were on strike. Can you imagine such a condition being allowed to exist? And yet, legally and morally, where is it any different than labor union paid pickets preventing the owners and managers of factories from entering their own properties?

There are clearly two kinds of law enforcement in the United States today, and it is frightening to see how the rights of minorities are ignored by our lawmakers, our courts and our police power.

## PUBLIC UTILITY

Continued from page 1  
ment such as has been used nowhere else in the construction of other transmission lines. The construction of this line was a major accomplishment and now becomes part of the company's state-wide transmission system.

In addition to the construction of transmission lines, the company has placed in service during the past 30 days a new 18,000 kilowatt steam plant at Sarasota. At Riviera their new 42,000 kilowatt steam plant is now well under way and it is expected that this huge station will be in service late this year. A further addition is an 18,000 kilowatt unit to be added at the company's Sanford plant. The equipment will soon be ordered for this unit and construction started.

To further augment all of the above electric capacities, another 42,000 kilowatt steam plant is being designed and will be located somewhere on the lower East Coast. The total capacity of the four new plants will exceed the company's state-wide system prior to 1940.

Substations, transmission lines

and distribution facilities will be strengthened and increased to handle this huge amount of power. All will be used to serve the new farms, homes and industries the company confidently expects to locate in Florida. It is natural that company officials should turn their minds back to the days when power was first brought to the Everglades. In 1928 Florida Power & Light Company installed its first plant to serve the Pahokee-Canal Point area—its total capacity was 160 kilowatts, less than enough to serve the average celery pre-cooler now operating in the Glades. In 1929 a plant was located in Belle Glade with a total capacity of 60 kilowatts. This plant would be used to operate the 82 kilowatt potato machine now being used at the Pahokee State Farmers' Market. The growth of the area was so large and rapid, that in 1937 the company extended 43 miles of 66,000 volt transmission line from Okeechobee to Pahokee. Belle Glade and Pahokee were then connected with a 13,000 volt line.

Early in 1941 the growth of the southern area of the Glades,

including Belle Glade, South Bay and Lake Harbor, was so great that the 66,000 volt transmission line was extended from Pahokee to Belle Glade and a 3,000 kilowatt substation was constructed and placed in service at Belle Glade.

The use of the new line from Ft. Lauderdale insures the Everglades area of continuity of service, and power capacity to match their growth. With the new line operating, two sources of power are available, from the north or from the south, both into the large plants and system of the company.

The stupendous growth of the Everglades with its unexcelled farm lands has been carefully followed by the company to the extent that 40-1-2 miles of new distribution or service lines has been built throughout the area during the past year, with 29 additional miles and construction in progress. Virtually every farm or farm operation in the area from Clewiston to the north end of Indianland and west to a line

paralleling Twenty Mile Bend is now served with unlimited power.

It is difficult to believe that in 1930 there were 408 electric customers in the Everglades; 1,007 in December 1935; and 2,784 in December 1945—an increase of 178 per cent in ten years. The total load on the Everglades plants in 1935 was 725 kilowatts, about enough to serve the new Florida Ranges Products Company's plant, now under construction. This shows a growth in the power demand made on the company's facilities of 306 per cent during a ten year period. In 1930 there were 50 farm customers as compared to 131 to date. This might seem a small number but the character of the Glades is such that extremely few farmers live on their farms. They reside in homes in Pahokee and Belle Glade and other communities comprising the Everglades. A great number of the actual Glades and farm operations are Indianland and west to a line

TO MY FRIENDS AND CONSTITUENTS:

I am humbly and sincerely grateful to my friends and constituents of the Sixth Congressional District for allowing me to become the Democratic nominee for the Congress of The United States without opposition in the Democratic May Primary.

This fact makes me very happy and it gives me encouragement in the type of representation that I have endeavored to give to my District, State and Nation. It makes it possible for me to devote all of my time and energies to the pressing national problems that are now facing our Nation for solution.

I assure you that SERVICE shall be my watchword; and ACHIEVEMENT my goal.

Sincerely yours,

DWIGHT L. ROGERS

industrial schedules. So it is interesting to note that in 1930 there were 134 commercial customers as against 372 in December 1945. In 1930 there were but eight industrial customers and it remained this way for five years. But in December 1945 there were 74 industrial customers. The population growth of the Everglades is reflected by the fact that there were but 188 residential customers in 1930, 555 in 1935 and 1,675 as of this past December.

It is easy to see the source of this growth when we realize that in 1930, 2,104 cars of vegetables were shipped during the season, 5,540 in 1935, and the

## New Paths for Long Distance!

To take care of the continued heavy volume of long distance calls, thousands of miles of long distance circuits are being added to the South's telephone network.

As construction work progresses, calls now sometimes delayed, will begin to find new paths. In the meantime, if your call happens to be delayed, we hope you will understand. We are faced with a big job that will take a lot of time and money to complete. But we are going at it eagerly and efficiently with every resource at our command.

## School News

By Betty Lou Powell

The 7th grade boys' team, the Baby Lambs, and the 10th grade, the Sweet Peas, played at noon in the gymnasium Monday. The score was 31 to 0 in favor of the Sweet Peas.

Tuesday the Kinkley Dinks, 8th grade girls, and the Pompadour Circle, 9th grade girls, played with a score of 14 to 0 in favor of the Pompadours. The elementary grades are being taught basket ball in their physical education period with the boys being coached by Sonny Smith, and J. T. Harrell and the girls instructed by Ouida Hughes. They are progressing nicely and seem to like the game.

The 9th grade English class has organized a club which is named the Q-S-E-C. Officers were elected as follows: Jerry Cone, president; Billy Joe Leathers, vice president; Betty Lou Powell, secretary; and Jonson Lloyd, treasurer. The meetings are held every Friday at second period in Miss Roberts' room, and each week a program committee is elected to conduct the program. A Valentine party is being planned for next week, and two committees were appointed, which are composed of Joanne Livingston, Martha Parker and Billy Joe Leathers for the party, and Shirley Campbell and Maxine Selig to make up the program.

The Teen Agers had their third meeting Friday evening on the lighted tennis courts of the City Park. Ping-pong, bingo and checkers were played on one court, while dancing was enjoyed on the other one to the music of a victrola and loud speaker brought over by John Rosendahl. Refreshments of popcorn, cookies and drinks were served by the committee of Bo Jameson, Louise Emory, Jewel Bass, Helen Friedheim and Daphne Schreiber.

Chaprons were Mrs. Kenneth Lutz, Mrs. Thomas Brygger, Mrs. Joe Friedheim, Miss Myrtice Gillman and Mr. Rosendahl.

A meeting of the Future Farmers was held Wednesday evening with 35 members present. Plans were made for the Chapter to attend the State Fair which will be held in Tampa on February 9, and the boys will leave here in a group Friday afternoon. A team will be chosen to participate in the cattle judging contest. It was announced that the annual banquet will be held in March with the date to be decided later. Committees were appointed and will begin work at once. Ward Harrison, fifth state vice president, will attend the state officers' meeting in Tampa on Friday and will represent

the 4th FFA district which includes a large part of south Florida.

At present the members are raising 1200 chickens cooperatively, and are preparing forty acres of land to plant their spring crop of beans. It was announced that a new caterpillar tractor has been ordered.

### MARY ELEANOR KIDDER HAS BIRTHDAY DINNER

In celebration of her birthday Miss Mary Eleanor Kidder entertained at her home Tuesday evening. A chop suey dinner was served by Mrs. Kidder and then the group played a Russian wishing game. Music and singing also were enjoyed. Guests were the Misses Helen Friedheim, Louise Emory, Anne Kirchman and Grace Eggleston.

### Barbee Awarded A High Honor by Insurance Company

E. D. Barbee, who has been in the life insurance game for the past four years, the last two years with the Panhandle Life Insurance Company, Jacksonville, has been notified that he has made a record of insurance sales during the past year, that places him at the top of all the company's sales agents.

His record gives him membership in the Lawrence F. Lee club, the highest honor that the company confers on its agents. In addition to this coveted honor, Mr. Barbee will be a member of a group of around 50 club members who will soon be given a four day outing by the company to Havana, Cuba, the trip to and from Miami being by a specially chartered plane.

Mr. Barbee's working area is in the Pahokee sector. Barbee holds membership with the Masonic and Odd Fellow lodges and the Lions club.

SOUTH BAY  
BEAN CITY  
LAKE HARBOR

Mr. and Mrs. Kenneth N. Rider of Franklin, Ind., Lieut. and Mrs. John M. Rider of Jacksonville, were guests of Mr. and Mrs. Alvin Crow last week. Mr. Rider is the brother of Mrs. Crow. He is in charge of several tomato canning plants in Indiana.

Mr. and Mrs. A. L. Byrd and family, who recently returned from a several years sojourn at Panama City, are occupying the former Fries apartment on Canal street.

Mrs. Henry Harrison and daughter Margaret visited her uncle, V. N. Greer and family, last week.

Mr. and Mrs. Bob Willis and children Mary Lee and Bobby of Okeechobee, visited his sister, Mrs. Forrest Norton, and brother, Leon Willis and families, over the week end.

Marvin Lee, MN 2-C, left on Saturday for New York for assignment to duty after spending a month with his family at Lake Harbor. His wife and baby are still with his parents, Mr. and Mrs. W. M. Lee.

Rev. and Mrs. Ted Temoshchick, Miss Marian Mutchler and Miss Martha Jean Ratley took dinner Sunday at the Belle Glade Prison Farm as guests of the prisoners.

Mrs. Julius Herring of Hookers Point visited her daughter, Mrs. H. B. Walker and family, the first of the week.

E. E. Hardy, ARM 3-C, and wife, stationed at Jacksonville, were week end guests of their respective parents, Mr. and Mrs. M. D. Hardy, Mr. and Mrs. L. O. Ratley.

Rev. Ted Temoshchick, Rev. Albert Dawson of Clewiston, Carol and Audrey Best, Martha Ratley, Curtis Williams, Frances Williams, Carolyn Mutchler, Donald Barnes, Billy Strickland enjoyed an outing at Fishing Creek Saturday.

Sgt. Edwin Dorsey, recently discharged from service at Montgomery, Ala., and Mrs. Ruth Ratley Dorsey, are visiting his brother at Houston, Tex., and will visit his parents before settling in a home of their own.

Mr. and Mrs. W. E. Hudson have returned from White City where they visited Mr. and Mrs. Frank Moore and family.

Miss Unity Richards of Panama City arrived the first of the week to visit her niece, Mrs. Annie Cooper.

Howell Goodbread, S1-e, stationed at Miami, visited his parents, Mr. and Mrs. P. E. Goodbread, the first of the week.

Vernon Henderson, WT 1-C, is home on 30 day leave with 15 days additional traveling time. He is visiting his wife and parents at Lake Harbor and a brother and family in Pahokee. He recently returned from sea duty in the Pacific.

W. H. Rawie of Charleston, S. C., navy yard, is visiting relatives at South Bay, and his brothers, Roy and Vernie Boots at Belle Glade.

Millie Thames of Panama City is visiting her brother, Malcolm Thames and family, at Lake Harbor.

C. A. Thomas is picking beans on Ritta Island this week. The beans are of excellent quality and bringing good prices. They are being handled thru his own packing plant at Lake Harbor, Wilson and Thomas.

R. Y. Creech is also harvesting snap beans on Ritta, the product being handled by the Pioneer Growers at Belle Glade.

C. F. Wilson, brother of W. R. Wilson, is now working as field supervisor on his brother's farm. He only recently was released from the armed forces. He was a staff sergeant in the 19th Armored Division.

Vance Denton, gunner 3-C, son of Mr. and Mrs. V. C. Denton, grandson of Mrs. J. M. Templeton of South Bay, is en route home and will be discharged from service. He has been on duty in the South Pacific for several years.

## Knife Used Fatally

Bobbe Chastain, negro, was stabbed to death Sunday after-

noon in an altercation over the wife of the second negro at the Berline Walker quarters. He killed, a negro known as "Cigar", gave himself up to Chief of Police Payne at South Bay early Monday morning and is lodged in jail charged with murder.

## Growers' Meeting

The February meeting of the Glades branch of the National Wholesale Vegetable and Fresh Fruit Association, will be held at the Gala club at South Bay, net Tuesday night, February 12, at 7:30 o'clock. The usual dinner will be followed by an important program of reports and business.

## New Arrival

Mr. and Mrs. Norman Dalrymple, Coral Gables, announce the birth of a daughter, Gladys Louise, on February 1 at the Jackson Memorial hospital in Miami. The wee lady is the granddaughter of Mr. and Mrs. H. O. Mitchell of South Bay. She weighed 7 pounds and 10 ounces at birth.

## Free Lock Valves

Mr. Plank, of Plank and Thames, has now completed the work of putting the Lake Har-

bor locks in the Miami Canal in order for use. The locks had not been used for so many years that the valves were frozen. Mr. Plank worked under water for two hours, using a diving helmet and pump furnished by the U. S. engineers at Clewiston. Two Drainage Company men assisted him by handing him tools and implements with which to free the valves.

## Pioneer Passes Away

David H. Hetherington, who was known locally as Uncle Dave, pioneer of the Okeelanta everglades, died at the age of 84 at his home in Okeelanta Monday, January 28.

Mr. Hetherington came to the Glades in 1915 from Ontario, Canada, as a retired prospector and world traveler, and had made his home here since that time.

## Fifty Years of Service

"Service" as defined by Webster is "any work done for the benefit of another." In the good old days before Pearl Harbor we were very proud of the extent and variety of our services. In fact, we tried to anticipate every desire in service and merchandise. During the war years we had to curtail some of our services due to lack of help. We have not been able to make the improvements needed due to lack of materials. We have tried, however, to make up for these unavoidable lacks by giving you more courtesy, more good nature, more friendliness.

And while we're talking about the recent past, we want to tell you how much we appreciate your own cooperation, your good humor, your patience. Thanks for carrying your packages! Thanks for buying carefully and eliminating returns and exchanges. Thanks for your understanding when we were unable to give you what you wanted. Without your good will we could not have done what was asked of us.

Great plans for better service, modern equipment, a finer store are in the making. What those plans are specifically cannot be told now. Suffice it to say that we'll soon be demonstrating anew why this fifty-year-old institution will continue to be your favorite store and why you can continue to depend upon Anthony's for the services of providing what you want when you want it...of making your shopping easier and pleasanter.

This is the 17th and last of a series of ads commemorating Anthony's Golden Anniversary.

**Two Young Veterans**

Quarrel And One Is Badly Wounded

An unfortunate shooting scrape took place in the Lamb apartment hotel early Monday morning between two young veterans, growing out of a woman trouble.

R. D. Smith, returning to his home, went to the room of a woman friend, and there found J. P. Hodges, in her company.

Leaving the room, according to police report, Smith secured a revolver and returned and shot Hodges three times, in the stomach, in the right leg and the right foot.

Hodges was taken to the Migratory hospital and an emergency operation was performed and blood transfusions given to save his life.

The woman in the case was held as a material witness and Smith was taken into police custody to await the outcome of the shooting.

**Police Cleaning Up Numerous Over-Crowded Places**

Chief of Police Parrish and Assistant Chief Carlton, with the assistance of the patrolmen, are attempting to clean up an undesirable condition existing in the city, in relation to crowded tenement houses, rooming places and charging excessive prices for accommodations, which seems to be pretty much prevalent over the city, especially in colored town.

Police are ordering operators of such places to get their city occupational licenses, insisting that they keep a register for the listing of all guests housed, and that a stop be made of overcrowding sleeping quarters and the practice of double and triple occupancy of rooms during the day or night.

Many known fellows with criminal records are drifting in to the city, and seek hiding in some of the negro quarters, and by demanding registration of guests at all the places, police can more easily ferret out a wanted criminal, and then the operators also come under the hotel operation regulations.

**Enjoyed Chicken Feast**

The Men's class of the First Baptist church last Friday night were hosts to around 100 guests at a chicken dinner served on the church lawn. Among the guests were a large number of returned war veterans, who were the special guests of the occasion. Everyone had a very pleasant and jolly evening.

The Dennis Small male quartet of LaBelle delighted with its musical selections, and the address of the evening was given by Dr. C. B. Althoff, of the LaBelle Baptist church, who urged that veterans take a place in the religious life of their communities.

**Important Lodge Meeting**

All members of Glades Lodge No. 36, IOOF, are urged to be present at the meeting Thursday night, February 14th, as there is important business to be transacted, including the reading of the new Constitution and by-laws and to arrange a schedule for degree work.

**Degree Work Announced**

At the coming session of Belle Glade Lodge No. 273, F. and A. M., on February 12th, degree work is programmed by Master Ralph Freeman, and a full attendance of membership is desired present.

**Heavy Income Returns**

W. E. Bamford, of the Sanders block, states that a gradual flow of income tax report makers have been finding his place, and that to date he has forwarded to the Federal taxing units far more reports than for any like period in the past ten years. Reports are also fairly good returns to the government for 1945 incomes.

**Tax Collections Good**

City Clerk A. L. Wallis reports that tax collections are coming in at a fairly good rate, with about 75 per cent of the occupational and 65 per cent of the property taxes paid. He also reports quite a brisk business in making transfers of title to properties.

**Dudley Hattaway Dies**

L. E. Will has just been informed by Earl Waldo, a former blacksmith in his employ, of the death of Dudley Hattaway, at Pensacola, last December. Hattaway for a number of years was shop foreman for Mr. Will, leaving here some eight or nine

years ago, after the death of his wife. During the war, Hattaway had been employed in the ship yards at New Orleans. On the day that Hattaway passed away he tried to make a phone connection with Mr. Will but was unable to get the message through. Hattaway is survived by a son and daughter.

**No Control on Beans**

The OPA has issued new price controls, and there will be no ceilings on snap beans and several other commodities raised in the Everglades. Canning house beans will be handled without any attention to price controls. Markham Brothers are operating their big cannery at Okeechobee, but on a reduced schedule, owing to the lack of good canning vegetables.

**BITTING ANNOUNCES STARCH INDUSTRY**

NEW EVERGLADES ENTERPRISE—The \$7,000,000 starch-plant of the United States Sugar Corporation, which will provide a new source of starch from sweet potatoes, is shown above. Largest and most modern of its type in the world, the new buildings cover six acres of ground. At left, Clarence R. Bitting, president of the sugar company, holds an ordinary edible sweet potato and the large starch potato for comparison. At right, two employees bag the products of the starch-house: high-grade starch and sweet-potato pulp, which is an excellent livestock feed.

These Everglades producers are combating. The beginning of commercial production of root-starches marks another significant milestone in the development of the Florida Everglades—the last frontier of the United States and the most productive area of like size in the world. In that development, I take great pride and satisfaction," Bitting said in announcing the beginning of starch operations.

The starch-house, largest and most modern of its type in the world, consists of five buildings covering six acres of ground, with content of all structures in excess of 2,500,000 cubic feet. In addition to its starch output, it will produce annually some 30,000,000 pounds of by-product materials for livestock feed.

The project represents a substantial part of the company's \$20,000,000 diversification program. With its new starch-house and the sugar-house, largest on the continent, the sugar corporation will provide jobs for more than 7,500 persons with a yearly payroll approximating \$14,000,000. The starch and its derivative are used in the production of almost every item of commerce, from

present a brief talk. The chief feature of the program will be a talk by Mrs. Clara Capron, county supervisor of instruction. There will also be a group of musical numbers by the Junior

High School Girls' Glee club, and a short educational film will be shown. The public is invited.

**Generous Donors**

The result of the March of Dimes in South Bay was announced by Principal Harold S. Emery as \$94.20 collected by the pupils from the various rooms. Every home room in the school participated and many children from each room. The result averaged about 60 cents for each child in the school.

Buy Defense Savings Stamps and Bonds.

**\$10**

will open a PERSONAL CHECKING ACCOUNT and you are not under obligation to maintain any fixed balance.

You may keep as much or as little in the bank as desired. The cost is only 10 cents for each check written. You may have a beautiful check book with your name printed therein.
